

## INDOFIL LACQUER HF - MATT

### Matt Lacquer Emulsion with High Fastness

#### PHYSICAL PROPERTIES:

Composition	:	Formulation based on nitrocellulose with special additives
Appearance	:	Milky white pourable viscous emulsion
Active Content	:	18% ± 1.0%
Solubility	:	Readily soluble in water

#### DESCRIPTION:

**Indofil Lacquer HF-Matt** is water dilutable dull lacquer emulsion designed as aqueous top coat with uniform dull look & high fastness. It is recommended for shoe uppers, softies, Garment nappas & milled leathers. It is having good drymilling properties.

**Indofil Lacquer HF- Matt** imparts following unique characteristics,

- Good matting effect with uniform look.
- Gives pleasant smooth and silky touch.
- Excellent dry & wet rub fastness.
- Exhibits good malleability.
- Imparts very high physical parameters.
- Compatible with all anionic finishing auxiliaries.
- Good cold crack resistance.

#### APPLICATION:

**Indofil Lacquer HF- Matt** is best suited as top coat for full grain & corrected grain shoe uppers, softies, garment nappa & all milled leathers where dull look is required. It also can be mixed with Lacquer HF for gloss adjustment.

**Indofil Lacquer HF- Matt** can be mixed with feel modifiers for better touch & handle. It can be added to season intermediate coats for fastness improvement.

**Indofil Lacquer HF- Matt** is miscible with water at all the proportions & is having wide applications as follows,

For Full grain & Corrected grain softy Uppers: Indofil Lacquer HF- Matt 1:1 with water – 2 X Coats

For Leather goods & garments : Indofil Lacquer HF-Matt 1:1 with water – 2 X Coats

**STORAGE STABILITY:** 6 months if properly stored in cool & dry place under shed in sealed drums.

**Recommendation: Product to be stirred well before every use.**
