

## INDOSTAB LS MP - 9

### INTRODUCTION:

INDOSTAB LS MP-9 is Lead Based Stabilizer complex, specially developed for applications like rigid PVC fittings which are not only subjected to tough processing conditions but also to tougher exterior UV exposures.

It has proprietary blend of Sulphates and Phosphates along with speciality lubricants and co-stabilizers that are co-precipitated at controlled conditions, results specific molecular structure which makes the product perform better. Formulations with LS MP-9 can take more filler loads as compared to products stabilized with Tins, that not only increases Vicat's softening point but also keep formulation cost under control.
