

INDOFIL BINDER PR-09

Specialty Protein Binder

PHYSICAL PROPERTIES:

Composition	:	Anionic proprietary blend
Appearance	:	Straw colour pourable viscous liquid
% Solids	:	8.5% ± 0.5%
pH (1:10)	:	7.5 - 8.5
Solubility	:	Readily soluble in water in all proportions

DESCRIPTION:

Indofil Binder PR-09 is unique modified casein binder designed for addition in season coat as protein binder which helps in plate release. In polish & glaze finish it can be used in base coat imparts good luster with flat & clearly visible grain. It can be used for all kind of leathers like shoe uppers, softies, garments & milled Leathers.

Indofil Binder PR-09 imparts following unique properties,

- Promotes good plate release with gloss
- Imparts glossy, flat and clearly visible grain in polish & glaze finish
- Gives soft natural touch to the leather
- Creates brilliant luster and aniline effect
- Compatible with other anionic finishing chemicals
- Can be fixed with formaldehyde for better fastness

APPLICATION:

Indofil Binder PR-09 is medium soft protein binder recommended for base coat & season coat application for full grain, corrected grain uppers & softies. It imparts good gloss with natural grain look & warm feel. Being a protein binder it needs to be stored well & away from direct sunlight.

Indofil Binder PR-09 recommended as ground coat auxiliary in polish & glaze finish imparts good luster with flat & clearly visible grain. It can be used up to 75 – 125 parts in ground coat along with other products.

Indofil Binder PR-09 is recommended up to 50-100 parts/liter in season coat in resin finishing.

STORAGE STABILITY:

6 months if properly stored in cool & dry place under shed in sealed drums.
