

INDOFIL LACQUER WT 815

Special Lacquer Emulsion With Good Fastness

PHYSICAL PROPERTIES:

Composition	:	Formulation based on nitrocellulose with special additives
Appearance	:	Milky white pourable viscous emulsion
Active Content	:	15% \pm 0.5%
Solubility	:	Readily soluble in water

DESCRIPTION:

Indofil Lacquer WT 815 is water dilutable nitrocellulose lacquer emulsion specially designed as aqueous top coat with good gloss & high fastness. It is recommended for shoe uppers, softies, Garment nappas & milled leathers.

Indofil Lacquer WT 815 imparts following unique characteristics,

- Clear glossy film.
- Gives pleasant touch & natural optics.
- Good dry & wet rub fastness.
- Good jetness with standing gloss.
- Imparts very high physical parameters.
- Good dry milling properties
- Compatible with all anionic finishing auxiliaries.
- Can be used as intermediate lacquer for upholstery finishing.

APPLICATION:

Indofil Lacquer WT 815 is best suited as top coat for full grain & corrected grain shoe uppers, softies, garment nappa & all milled leathers. It also can be used as intermediate lacquer for upholstery finishing.

Indofil Lacquer WT 815 can be mixed with feel modifiers for better touch & handle.

Indofil Lacquer WT 815 is miscible with water at all the proportions & is having wide applications as follows,

For Full grain & Corrected grain softy Uppers: Indofil Lacquer WT 815 1:1 with water – 2 X Coats

For Leather goods & garments : Indofil Lacquer WT 815 1:1 with water – 2 X Coats

STORAGE STABILITY: 6 months if properly stored in cool & dry place under shed in sealed drums.

SPECIAL PRECAUTION: Always stir well the product before each & every use.
