

LEATHER CHEMICALS

(Formerly known as Indofil Organic Industries Ltd.)

INDOTAN DL

Dye Leveling & Dispersing Syntan

PHYSICAL PROPERTIES:

Composition	:	Blend of special aromatic additives
Appearance	:	Beige to light brown free flowing powder
pH (1:10)	:	6.5 – 7.5
% moisture content	:	Max. 6.0%
Solubility	:	Readily soluble in water

DESCRIPTION:

Indotan DL is specialty dye leveling & dispersing syntan designed for leveling & dispersing of dyes. It also accelerates the penetration of all other retanning agents and vegetable extracts. It is suitable for all types of uppers, softies, garments, suede & split suede.

Indotan DL imparts following unique properties,

- Accelerates penetration & uniform distribution of dyes
- Imparts good dispersion to all retanning agents
- Suitable for lighter & pastel shades
- Does not affect the brilliancy of dyeing shade
- Compatible with all vegetable extracts, anionic syntans & fatliquors

APPLICATIONS:

Indotan DL can be directly added in the drum. It is best suited for those leathers where dye shades are most important. It is recommended for all types of full grain, corrected grain, suede & upholstery leathers in the range of 2.0 – 5.0%. depends on requirement.

STORAGE STABILITY:

6-9 months if properly stored in cool & dry place under shed in sealed bags.
